

1. Will the daily feature continue?

Absolutely! "[Ignite with Barry Meguiar](#)" celebrated three years on the air in early 2017, and we're thankful for the opportunity to continue expanding the one-minute program. *IgniteAmerica* is not a replacement, but a supplement, to the content listeners hear via the feature.

2. What are you doing with my data?

We're giving it right back to *you*! As you'll note in the "What Stations Get" section at our "[Partner Resources](#)" page, *IgniteAmerica* will *only* ever be used to bring faith-sharing Christians together. It will never be used for fundraising or the promotion of any ministry. Every station's database will never be shared with other broadcasters.

3. Do listeners have to sign up to see the resources?

No. Anyone can access igniteAmerica.com and browse the videos, blogs, and other resources without any registration. Sign up is only required for those listeners who opt to join the "IgniteAmerica Community" (so they can create a login and participate in the "social media-esque" environment of connecting with other faith-sharers).

4. Is there a spot requirement?

No. The :15 and :30 prompts we provide to you are for use at your discretion. They are designed with a twofold purpose:

- To spark in your listener the idea that witnessing doesn't have to be hard ... and that there's no better time than now to start doing it!
- To invite your listener to igniteAmerica.com ... it's their portal for practical, biblical, and inspirational evangelism resources.

Placement and frequency in your lineup is solely your decision.
