DID YOU KNOW?

- More than 84 million passengers traveled through **Chicago's O'Hare International Airport** in 2019. To handle all that traffic, the airport currently has eight runways in operation—*more than any other airport in the world*—with more than 74,000 square feet of asphalt and concrete.
- The airport is capable of **quadruple parallel landings**, meaning four aircraft can land at the same time. The two shortest runways are 7,500 feet long; the longest is 13,000 feet long.
- Opened in 1944, O'Hare is a major hub for both American Airlines and United Airlines. Prior to 2020, the airport served as many as **2,500 flights each day**.

IN OTHER WORDS...

"The Great Commission (Matthew 28:18-20) is within our grasp! God is moving, even through the pandemic. People have nowhere left to look but up. No single organization can get the job done. But, all the Great Commission efforts of the whole Body of Christ can get the job done."

— Steve Douglass

"When Christians open their hearts and home to Foster Care, they can make a huge difference in the life of a child."

— Brad Mattes

Weekly Verse

"Now may the God of peace who brought again from the dead our Lord Jesus, the great shepherd of the sheep, by the blood of the eternal covenant, equip you with everything good that you may do his will, working in us that which is pleasing in his sight, through Jesus Christ, to whom be glory forever and ever. Amen."

— Hebrews 13:20-21 (ESV)

ON THE HORIZON
