**DID YOU KNOW?**

MONACO EDITION

- With less than one square mile of land, it probably doesn't come as much surprise that **Monaco** has the **shortest coastline in the world**. Situated between France and Italy, Monaco has a mere **2.5 miles** of coastline along a world-famous section of the Mediterranean called the French Riviera.
- Known for its glitz, glamour, and enormous wealth, the tiny city-state is home to over **12,000 millionaires**.
- But Monaco's short shoreline has become so congested that the country is undergoing a **billion-dollar project to artificially extend it by 15 acres**, with the hopes of adding a park, promenade, and marina.

**IN OTHER WORDS...**

"Pain redeemed is more powerful than pain relieved."

—Philip Yancey

**Weekly Verse**

... The bright light of Christ makes your way plain. So no more stumbling around. Get on with it! The good, the right, the true—these are the actions appropriate for daylight hours. Figure out what will please Christ, and then do it.

**Ephesians 5:8-10**
