*On This Day...*

**MONDAY 5/24**

Growing up, you squabbled over petty things. But you also have a lot of shared life experiences. So, on *National Brother's Day*, give your brother a call and thank him for the good times together.

**TUESDAY 5/25**

"*In a galaxy far, far away*" ... a milestone day for fans occurred in 1977, when the first *Star Wars* movie opened in theaters across America. "*May the force be with you!*"

**WEDNESDAY 5/26**

It was probably a skill you learned in elementary school. Do you remember how to fold a paper airplane? On *National Paper Airplane Day*, don't let the sun go down without giving it a try.

**THURSDAY 5/27**

The second largest city of Russia and considered one of the world's major cities, *St. Petersburg* has played a vital role in Russian history since its founding in 1703.

**FRIDAY 5/28**

"*Nothing looks better in your 50's than sunscreen in your 20's.*" (Jennifer Garner). It's *National Sunscreen Day*, so you know what that means, time to lather up with SPF!

**DID YOU KNOW?**

- Plan to travel again soon? You might want to know that the **longest domestic flight in the U.S.** is Hawaiian Airlines' nonstop service from **Boston to Honolulu**, which covers a distance of **5,095 miles**.
- The next longest are flights from **New York-JFK to Honolulu** (4,983 miles), **Newark to Honolulu** (4,962 miles), and **Washington-Dulles to Honolulu** (4,817 miles).
- But none of these can claim to be the **world's longest domestic flight**--that honor goes to the route from **Paris** to the French overseas territory of **Réunion**, a distance of 5,809 miles.
- This spring, COVID-19 had the effect of creating the **longest domestic flight ever flown Papeete, French Polynesia to Paris**, nonstop (9,765 miles).
