On This Day...

MONDAY 5/31

Often associated with summer activities, *Memorial Day* is so much more than a day off work. Today we honor the sacrifice made by our military personnel who died for our freedom!

TUESDAY 6/1

A kind word has the power to turn someone's day right side up! On *National Say Something Nice Day*, do just that. Share encouragement with a friend or loved one in need.

WEDNESDAY 6/2

Yes, you heard me right! Today is *National Leave the Office Early Day*. So work hard and get your assignments done! (But don't forget to ask your boss before you clock out 😊).

THURSDAY 6/3

3 ... 2 ... 1 ... *blast off!* It was 1965 when Major Edward H. White II opened the hatch of the *Gemini 4* and stepped out of the capsule, becoming *the first American astronaut to walk in space*.

FRIDAY 6/4

What'll it be ... sprinkles, glazed, or chocolate frosting? With so many choices available, it's the biggest decision you'll make all day. Enjoy *National Donut Day* with this delicious treat.

DID YOU KNOW?

- One of the most recognized **landmarks** worldwide, the “**Christ the Redeemer**” statue in Brazil (Rio de Janeiro) is soon to be surpassed in height. A **new statue** is going up 600 miles to the south and when completed (by the end of 2021), “**Christ the Protector**” will be five meters taller than the companion statue.
- The waters around **Antarctica** are cold, with temperatures ranging from just **28 to 50 degrees Fahrenheit**. The only reason they don't freeze is because of the **salt** present in the water. Despite the harsh conditions, the Southern Ocean is teeming with marine life. The **notothenioid** fish is an abundant species that can **withstand the chilly waters** around Antarctica thanks to a biological trait called **glycoprotein**.

IN OTHER WORDS...

Weekly Verse

For you were called to freedom, brothers. Only do not use your freedom as an opportunity for the flesh, but through love serve one another.
