## DID YOU KNOW?

- The animal dubbed most dangerous in the Grand Canyon is the **rock squirrel**. The creatures may be cute, but they can also be aggressive, especially when visitors are unnecessarily invading their space.
- The etymology behind the word "April" comes from the verb "**aperire**," which means "to open." It's believed that the word refers to the season of trees and flowers beginning to "open" or bloom.
- **When coffee first arrived in Venice, Italy**, in 1615, it was incredibly controversial. People were afraid of the color, the taste, and the effects. It was so feared that locals said it was a "bitter invention of Satan." They asked Pope Clement VIII to get rid of it. Instead, he tried it and loved it, giving it official papal approval.
- Two of the largest gatherings in **Times Square** were on 8/15/45 when the crowd marked the end of WW2, and for the 1999 millennium celebration on New Year's Eve.

## IN OTHER WORDS...

"People may be unaware of what you've had to endure, but Jesus isn't. He has wounds too, and He promises that through His suffering you can find healing."

## Weekly Verse

"He was chosen before the creation of the world, but was revealed in these last times for your sake. Through Him you believe in God, who raised him from the dead and glorified Him, and so your faith and hope are in God."

1 Peter 1:20-21 (NIV)
