## DID YOU KNOW?

- **Saltwater Taffy** is said to have received its name after a boardwalk candy shop flooded with water from the Atlantic Ocean in 1883, soaking all the taffy in salty seawater. Reportedly, the shop owner joked with a customer that all he had was saltwater taffy, and the name stuck.
  - While many Americans may assume that President Franklin D. Roosevelt was the son of Theodore Roosevelt, **the two former presidents who led the country three decades apart were actually fifth cousins**. Their closest tie was FDR's wife Eleanor who was also the niece of President Theodore Roosevelt.
  - **A crocodile's tongue doesn't move**. It is held in place at the roof of the mouth.
  - **The Golden Gate Bridge** is painted a striking hue known as **international orange**, a reddish color that was chosen to compliment the bridge's natural surroundings.
