DID YOU KNOW?

• Apple's Siri stands for **Speech Interpretation and Recognition Interface**, but it also has some extra meaning. The name Siri in Norse means "beautiful woman who leads you to victory," while in Swahili, it means "secret."

• On January 4, 2023, Earth reaches **perihelion**, which is the point in the planet's orbit where it is closest to the Sun. At perihelion, Earth will be 91,406,842 miles from our bright star.

• Cream only whips at temperatures **under 50 degrees**. Any warmer and it becomes butter.

• More than 1,500 of 2,224 passengers on the *Titanic* perished when the ship sank. **Those who survived owed their lives in part to Morse code**, which had been used to alert the Cunard liner *Carpathia* as to the *Titanic's* final position and fate.

IN OTHER WORDS...

"We have longings, and we have unfulfilled longings because we will never, as long as we're in this body, have all that God intends to one day give us."

—Nancy DeMoss Wolgemuth

To hear more from Nancy, air **Revive Our Hearts** (25:00 daily program).

Our Verse for 2023
