MONDAY 2/6

At just 25 years old, **Princess Elizabeth became Queen** when her father, King George VI died in 1952. She celebrated 70 years on the throne a few months before she passed in 2022, making history as the only British monarch to do so.

TUESDAY 2/7

What makes getting a handwritten card in the mail so exciting? Maybe it is the thoughtfulness behind the gesture, or maybe the novelty of traditional media in our digital age! Celebrate **National Send a Card to a Friend Day** today, whatever the occasion!

WEDNESDAY 2/8

The White House made a significant technological leap today in 1922 when **President Harding installed a radio**. Just two years later, President Coolidge was the first president to broadcast from the White House. There were forty-two stations around the nation that aired the program which highlighted George Washington's birthday.

THURSDAY 2/9

In the 1960s, Boeing introduced the 747 to meet the rising demand for air travel. Today marks **the inaugural flight of the airplane** that has grown to be one of the most recognizable in the world. The first model ever constructed is currently housed in The Museum of Flight in Seattle.

FRIDAY 2/10

You may need one for rain or sunshine, but remember, don't open one indoors! The history of the umbrella dates back to ancient times, and **one of the first umbrella shops was opened in London in 1830**.

DID YOU KNOW?

- Over the course of her 70-year-reign, Queen Elizabeth spent time with 13 out of the last 14 sitting U.S. presidents. Which President missed the cut? **Lyndon Johnson**
- In 1948, the **J.W. Westcott** became an official U.S. Postal Service mail boat and soon would earn the world's first non-military floating postal ZIP code—48222.
- In July 1923, **President Harding** and his wife were returning from a trip to Alaska when they checked into the Palace Hotel in San Francisco. On August 2, the President had died of what was believed to be a heart attack.
- What is the world's largest building by volume? **Boeing's Everett Factory spans a massive 98.7 acres.**
- Early European umbrellas were made of **wood or whalebone** and covered with alpaca or oiled canvas.
