

For the week of:
09|18|2023

Get the low-down from a high-up perspective!

the mAAA^x

MONDAY 9/18

Order up! Today is all about an all-American favorite dish: cheeseburgers! Though there are differing histories on how this cheesy patty came to be, there is one thing we can agree on: they're mouthwatering! What better way to celebrate **National Cheeseburger Day** than by visiting one of the 91,990 burger-selling restaurants in the United States? Yum!

TUESDAY 9/19

It's been said that the pen is mightier than the sword and nowhere is this more true than on the ballot! Today is **National Voter Registration Day**, a reminder to sign up for your voice to be heard in the next election- be the change you want to see in America!

WEDNESDAY 9/20

Have you ever wondered how the Pacific Ocean got its name? On this day in 1519, **Ferdinand Magellan set sail from Spain and soon became the first European explorer to reach the Pacific from the Atlantic Ocean**. Upon noticing that this uncharted water was particularly calm, Magellan dubbed it Pacific after the Latin word for tranquil, pacificus!

THURSDAY 9/21

It's a tee-riffic day to be on the green! If a typical 150-acre course isn't your idea of fun, how about a scaled-down 18-hole course that's complete with windmills and castles? **Miniature Golf Day** is all about fun-sized obstacles, big-time smiles, and maybe even a hole-in-one!

FRIDAY 9/22

On September 22nd in 1862, Abraham Lincoln issued a preliminary **Emancipation Proclamation**, the document that went on to unite the country and set the ground for freedom for all Americans. The president felt so strongly about this proclamation that he said, "If my name ever goes into history it will be for this act, and my whole soul is in it."

DID YOU KNOW?

- The average cheeseburger has **350 calories**. Keep in mind that many factors can affect this total calorie count, including the burger size, the toppings, the fat content in the beef, and more.
- Astronauts have been able to **vote from space** since 1997.
- The Pacific Ocean covers more than **30% of the earth's surface**. It is so large it is bigger than the landmass of all the world's continents combined!
- The oldest known miniature golf course in the world, the **Ladies' Putting Club of St. Andrews in Scotland**. It sits right next to the legendary St. Andrews Golf Course.
- Lincoln's **Emancipation Proclamation allowed African American men to officially serve in the U.S. armed forces** for the first time. By the end of the war, 190,000 African-Americans had enlisted.
